DETAILED ACTION

Claim Rejections - 35 USC § 102

1. Claims 1-4, 12-15, and 22-23 are rejected under 35 U.S.C. 102(e) as being anticipated by Baskett 2002/0011336. Baskett shows a flow completion system with a tubing hanger 10 with a production bore 11, production passageway 48 and outlet, and further showing first 24 and second 26 closure members (wireline plugs; claims 3 and 13) and first (unnumbered, figure 16) and second 30 steel (claims 2, 4 & 14-15) annular seals creating first and second pressure containing barriers (uppermost; claim 12) that isolate the production bore and tubing annulus from a portion of the bore. Baskett shows an annulus bore 18 (claim 10) above the second seal with a closure member 44 and a tree cap 42 (claim 3). As concerns the method claims 22-23, they are rejected as being inherent to the apparatus of Baskett as noted above

Allowable Subject Matter

2. Claims 5-11, 16-21, and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

3. Applicant's arguments filed 04/27/05 have been fully considered but they are not persuasive. Applicant's arguments regarding Baskett are noted; however, element 10 functionally acts as an extension of the tubing hanger for which it is connected to thus

anticipate the claims as noted in the office action above. The upper end of 10 allows for the hanging of a production string while 10 is concentrically aligned with hanger 4, thus serving as a functional extension of the tubing hanger since the stab 12 sealable mates element 10 to element 4.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
